Medication		
Other		

Consent to Medication

Medication	Initial to Give Consent
Paracetamol – for pain relief and fever	
Ibuprofen – for pain relief and fever	
Anti-histamine – for hayfever and other allergic reactions	

Dental and Immunisation Programmes

Your learner has access to free dental and immunisation programmes. The school will provide basic information, such as a child's name, DOB, contact details and ethnicity, to the school dental service and WDH B Public Health Service.

Consent forms will be sent home during the year on which you can choose to consent, or not consent, to these services.

If you consent to this, the dental and immunisation teams will communicate with you directly prior to any treatment.

Medication

Any controlled medication (such as Ritalin or Rubifen) needs to be kept in a locked cupboard at school and administered by the registered nurse. Please email nurse@wgpcollege.school.nz to arrange.

ACC

As part of the health services provided at Whangaparāoa College, the school nurse may assess and treat injuries that occur while a learner is at school, or participating in school related activities.

If your learner sustains an injury that is covered by the New Zealand Accident Compensation Corporation (ACC), the school nurse may lodge an ACC claim on their behalf, where appropriate.

You will be informed if an ACC claim has been submitted for your learner, unless circumstance require urgent treatment.

I give permission for the above medication / information to be given as appropriate:

Parent / Caregiver Name: _____

Parent / Caregiver Signature: _____ Date: _____
